To receive the Robotcub OpenDay Audio-Video streaming you can use a media player capable to receive audio-video streams (i.e. Microsoft MediaPlayer, VideoLan, WinAmp) and connect to the following URL

mms://130.251.68.239:10080

For example, on a windows platform you can simply use Microsoft Media Player (at least version 8) and select the "*Open URL..*" command from the "*File*" menu then insert the URL as written above.
