ROBotic Open-architecture Technology for
Cognition, Understanding, and Behavior

Project No. 004370

RobotCub

Development of a Cognitive Humanoid Cub

Instrument: Integrated Project
Thematic Priority: IST – Cognitive Systems

D9.2 Material produced for the training activities

Due Date: No due date
Submission date: Month 65

Start date of project: **01/09/2004**   Duration: **65 months**

Organisation name of lead contractor for this deliverable: DIST, University of Genova

Responsible Person: Giorgio Metta

Revision: **2.0**

Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006)		
Dissemination Level		
PU	Public	PU
PP	Restricted to other programme participants (including the Commission Service)	
RE	Restricted to a group specified by the consortium (including the Commission Service)	
CO	Confidential, only for members of the consortium (including the Commission Service)	

Table of Contents

1 Introduction

This deliverable item is a running document which is updated constantly and regularly to reflect the development of the RobotCub training activities. In particular, it has been now transformed into a webpage which is constantly edited and updated with new material (based on the Wiki open source collaborative document preparation software). In its final form it will contain the results of the training activities and a set of links to relevant material, documentation, and manuals.

2 Links

The training material documents are available at:
- http http://eris.liralab.it/wiki/Deliverable_9.2_update

and the main RobotCub Wiki pages are available at:
- http://eris.liralab.it/wiki/Main_Page

More information will be constantly posted on the Wiki pages. The only entry point to the learning material is from the RobotCub Wiki pages.
