

First three-monthly meeting

Author: Giorgio Metta<giorgio.metta@robotcub.org>

The first three-monthly meeting of RobotCub will be held in Genoa on November 25-27th, 2004.

We would like to remind that most of the project's meetings are open to external participants. Although it might be late for this one please express your interest in participating to RobotCub by contacting one of the members of the team. Please note also that although the meetings are open in general, in practice because we need to organize activities, book the rooms, etc. you will require a formal invitation from the organizers.
